

# Vivid Palette Promises Fun

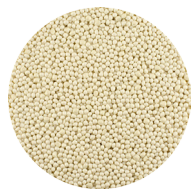

## STANDARD MIXES

Developed in German laboratories, JazzyPlay surfacing brings high-tech colour-saturated design freedom to the architects of play areas.

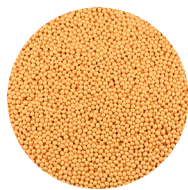

Tested to perform and retain its characteristics in the harsh climates of the Middle East, JazzyPlay's vivid palette promises fun, while the technology behind its proprietary thermoplastic rubber composition delivers the highest standards of quality.

## COLOUR RANGE

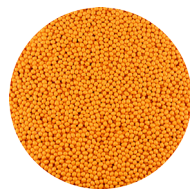

JazzyPlay's 12 brilliant, complementary hues are inspired by nature, presented in themes of Urban, Forests and Mountains, Deserts and Rocks, Seaside and Waters, Grass and Flowers, and can be blended to offer a limitless palette that highlights or integrates with any design vision.
